Play Foes

1. Click the following link: ITEC 4450 - Alec Burns (aburns10.altervista.org)
2. Then click the **"Please Click Here To Play Foes"** link displayed on the page
3. This will take you to the main page of Foes and will allow you to keep playing.
4. To play, grab a friend decides who will be Player 1 or Player 2.
5. Player 1 will use keys 'W', 'A', and 'D' to move their player, and will use 'V' to shoot.
6. Player 2 will use the arrow keys 'UP', 'LEFT', and 'RIGHT' to move their player, and will use forward slash ('/') to shoot.
7. To start the game, click the 'Start Game' button and use your keys to fight.
8. When the end of the level is reached the game will pause and a message will appear at the bottom of the game screen.
9. This will allow the "loser" of the current level to pick a powerup for the next round.
10. After a power up is picked then the game will continue.
11. Keep playing and repeat steps 8 and 9 until one player has won a total of five rounds.
12. Once the game is over a small message at the bottom of the game screen will appear showing who won the game.
13. To play again click the 'Reset Game' button at the top of the screen.
14. To quit, close your browser.
